1: Fill in the "Guess" column with predictions about your partner.

2: Ask your partner and fill in their real answers.

3: Calculate the difference between your prediction and the real answer. If you predicted 2 and the real answer is 2, you write 0 in the dif column. If you predicted -2 and the real answer is +2 you write 4 in the dif column.

4: Add up the dif column. The lowest score is the winner.
